It is time again to honor the coaches who stand out on deck in the early morning or late evening hours, in the cold and rain, or heat of the sun. We’d like to accept nominations for the 2005 SPMA Coach of the Year award. The winner’s nomination will be forwarded to the USMS Coaches Committee for consideration as USMS Coach of the Year for 2005.

Every once in a while, it’s nice to be recognized by one’s peers as having brought something special, something extra to the table. Perhaps you have a coach who has made a difference in your training, in your competition, in your life. Perhaps your coach has spent extra time working on some part of your swimming that makes you just a little bit better because of it. Now is your chance to tell your coach “Thank you.” Round up your teammates and start talking it up!! Just being nominated by one’s swimmers brings a real sense of satisfaction to a coach.

The selection criteria are as follows:

The Coach of the Year is selected on the basis of inspirational and instructonal qualities; club and individual accomplishments including championships and world records; non-competitive club and individual accomplishments including club size and growth, club participation, volunteering, and events run by the club; and the coach’s service to SPMA, USMS and/or other Masters organizations, participation in clinics, and published works.

To nominate your coach, provide a letter listing his or her accomplishments, and a maximum of four letters from your teammates supporting your nomination.

Nominations are due by March 31, 2006 and should be submitted to the SPMA office by email (pdf, Word, or text file) at registrar@spma.net. Total size for the file(s) must not exceed 1 MB per application. It would be appreciated if it is submitted as one packet, instead of numerous emails. Please contact the SPMA office if you are not able to submit by email or if you have any questions. The telephone number is (626) 296-1841.

Criteria can be found online at http://www.spma.net/coachyearspecs.htm

New Additions to the SPMA Library by Wayne McCauley

SPMA has four new breaststroke DVDs from Go Swim. They are: *Breaststroke with Dave Denniston; Breaststroke with Amanda Beard; Breaststroke Drills* (Staciana Stitts and Dave Denniston) and *Breaststroke Turns & Pullouts*. So many choices and most of us have so little time.

I have been described as a breaststroke guru, having seen almost every breaststroke video produced over the last 25 years and, as an American Swim Coaches Level 5 coach, USMS National Champion and All-American in breaststroke I study this stroke with great care. These are among the best videos ever produced with water so clear you can see every movement. Each focal point is illustrated from multiple angles, and slow motion and freeze frame are used with great effect. But what really makes these DVDs special are the athletes used and the techniques demonstrated by these great breaststroke swimmers.

If I had to pick just one breaststroke video to view, my choice would be *Breaststroke with Amanda Beard*. She demonstrates better than any swimmer ever the importance of streamlining, with her stroke returning to the basics we were all taught, i.e., pull, kick and glide. She streamlines so well during the glide that she took as many as ten strokes less than her competitors during the last fifty of the 200 meters when she broke the world record. This DVD teaches the six key focus points in less than 30 minutes, so you will not get distracted or bored. She admits there are portions of her stroke that are not conventional or perfect, but work for her. As a coach, I feel Staciana Stitts had better form, but Amanda used her better streamlining to win both the 100 and 200 meters breaststroke at the 2004 Olympic Trials, and set the World Record in the 200.

Men may feel more comfortable with the style of *Breaststroke with Dave Denniston*. In general, men are just not as flexible as Amanda, and Dave Denniston employs the same six key focus points with a slightly different perspective. His technique is near perfection in every aspect of the stroke, so overall you may copy better technique from this DVD. There is also some additional demonstration of turns, making this the best value if only viewing one DVD.

Now if your primary stroke is breaststroke and you love new drills, *Breaststroke Drills* with Staciana Stitts and Dave Denniston is perfect. Many of these drills are refinements of the Total Immersion body dolphin drills, but explained better and certainly with the best technique ever shown on DVD. One of my favorite drills had been swimming body dolphin breaststroke one length underwater. But watching it swum underwater upside down was a new treat! This is the perfect DVD for coaches and breaststroke nuts.

*Breaststroke Turns & Pullouts* uses five steps to learn fast turns and a powerful pullout. I highly recommend this to anyone who has trouble with these important parts of breaststroke. Forty percent of a 200-yard breaststroke is composed of pullouts and turns. Many seconds can be made up by improving this part of your stroke.

Go ahead and check these DVDs out, you will enjoy them and learn at the same time. Better yet, purchase the ones you like best, and share them with your coach and teammates. These DVDs will help you enjoy swimming breaststroke.

SPMA has a video library available for use by our members. There is a $7 charge for one tape or DVD, $10 for two, or $12 for three. This covers the cost of the envelopes and mailing both ways. Tapes must be brought to the post office for return due to USPS security requirements. We also need a separate check for $50 per tape that will be held as a deposit until the tape(s) are returned. This check will not be cashed unless the tapes are not returned. The rental period is one month. Give the SPMA office a call, and we’ll discuss which videos would best fit your needs. All titles below are VHS format videos unless followed by “DVD.” Please include alternates with your request, or note that you would prefer to wait if the videos you request are out on loan.
